All participants (applicant, applicant's representative, PTO personnel):

(1) Jeffery A. Brier.

(3) _____.

(2) Jerry Stanton.

(4) _____.

Date of Interview: 06 July 2007.

Type: a) ☒ Telephonic b) ☐ Video Conference
c) ☐ Personal [copy given to: 1) ☐ applicant 2) ☐ applicant's representative]

Exhibit shown or demonstration conducted: d) ☐ Yes e) ☐ No.

If Yes, brief description: _____.

Claim(s) discussed: 3-5.

Identification of prior art discussed: Havekost.

Agreement with respect to the claims f) ☐ was reached. g) ☒ was not reached. h) ☐ N/A.

Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: See Continuation Sheet.

(A fuller description, if necessary, and a copy of the amendments which the examiner agreed would render the claims allowable, if available, must be attached. Also, where no copy of the amendments that would render the claims allowable is available, a summary thereof must be attached.)

THE FORMAL WRITTEN REPLY TO THE LAST OFFICE ACTION MUST INCLUDE THE SUBSTANCE OF THE INTERVIEW. (See MPEP Section 713.04). If a reply to the last Office action has already been filed, APPLICANT IS GIVEN A NON-EXTENDABLE PERIOD OF THE LONGER OF ONE MONTH OR THIRTY DAYS FROM THIS INTERVIEW DATE, OR THE MAILING DATE OF THIS INTERVIEW SUMMARY FORM, WHICHEVER IS LATER, TO FILE A STATEMENT OF THE SUBSTANCE OF THE INTERVIEW. See Summary of Record of Interview requirements on reverse side or on attached sheet.

Examiner Note: You must sign this form unless it is an Attachment to a signed Office action.

Summary of Record of Interview Requirements

Manual of Patent Examining Procedure (MPEP), Section 713.04, Substance of Interview Must be Made of Record

A complete written statement as to the substance of any face-to-face, video conference, or telephone interview with regard to an application must be made of record in the application whether or not an agreement with the examiner was reached at the interview.

Title 37 Code of Federal Regulations (CFR) § 1.133 Interviews Paragraph (b)

In every instance where reconsideration is requested in view of an interview with an examiner, a complete written statement of the reasons presented at the interview as warranting favorable action must be filed by the applicant. An interview does not remove the necessity for reply to Office action as specified in §§ 1.111, 1.135. (35 U.S.C. 132)

37 CFR §1.2 Business to be transacted in writing.

All business with the Patent or Trademark Office should be transacted in writing. The personal attendance of applicants or their attorneys or agents at the Patent and Trademark Office is unnecessary. The action of the Patent and Trademark Office will be based exclusively on the written record in the Office. No attention will be paid to any alleged oral promise, stipulation, or understanding in relation to which there is disagreement or doubt.

The action of the Patent and Trademark Office cannot be based exclusively on the written record in the Office if that record is itself incomplete through the failure to record the substance of interviews.

It is the responsibility of the applicant or the attorney or agent to make the substance of an interview of record in the application file, unless the examiner indicates he or she will do so. It is the examiner's responsibility to see that such a record is made and to correct material inaccuracies which bear directly on the question of patentability.

Examiners must complete an Interview Summary Form for each interview held where a matter of substance has been discussed during the interview by checking the appropriate boxes and filling in the blanks. Discussions regarding only procedural matters, directed solely to restriction requirements for which interview recordation is otherwise provided for in Section 812.01 of the Manual of Patent Examining Procedure, or pointing out typographical errors or unreadable script in Office actions or the like, are excluded from the interview recordation procedures below. Where the substance of an interview is completely recorded in an Examiners Amendment, no separate Interview Summary Record is required.

The Interview Summary Form shall be given an appropriate Paper No., placed in the right hand portion of the file, and listed on the "Contents" section of the file wrapper. In a personal interview, a duplicate of the Form is given to the applicant (or attorney or agent) at the conclusion of the interview. In the case of a telephone or video-conference interview, the copy is mailed to the applicant's correspondence address either with or prior to the next official communication. If additional correspondence from the examiner is not likely before an allowance or if other circumstances dictate, the Form should be mailed promptly after the interview rather than with the next official communication.

The Form provides for recordation of the following information:

- Application Number (Series Code and Serial Number)
- Name of applicant
- Name of examiner
- Date of interview
- Type of interview (telephonic, video-conference, or personal)
- Name of participant(s) (applicant, attorney or agent, examiner, other PTO personnel, etc.)
- An indication whether or not an exhibit was shown or a demonstration conducted
- An identification of the specific prior art discussed
- An indication whether an agreement was reached and if so, a description of the general nature of the agreement (may be by attachment of a copy of amendments or claims agreed as being allowable). Note: Agreement as to allowability is tentative and does not restrict further action by the examiner to the contrary.
- The signature of the examiner who conducted the interview (if Form is not an attachment to a signed Office action)

It is desirable that the examiner orally remind the applicant of his or her obligation to record the substance of the interview of each case. It should be noted, however, that the Interview Summary Form will not normally be considered a complete and proper recordation of the interview unless it includes, or is supplemented by the applicant or the examiner to include, all of the applicable items required below concerning the substance of the interview.

A complete and proper recordation of the substance of any interview should include at least the following applicable items:

- 1) A brief description of the nature of any exhibit shown or any demonstration conducted,
- 2) an identification of the claims discussed,
- 3) an identification of the specific prior art discussed,
- 4) an identification of the principal proposed amendments of a substantive nature discussed, unless these are already described on the Interview Summary Form completed by the Examiner,
- 5) a brief identification of the general thrust of the principal arguments presented to the examiner,
(The identification of arguments need not be lengthy or elaborate. A verbatim or highly detailed description of the arguments is not required. The identification of the arguments is sufficient if the general nature or thrust of the principal arguments made to the examiner can be understood in the context of the application file. Of course, the applicant may desire to emphasize and fully describe those arguments which he or she feels were or might be persuasive to the examiner.)
- 6) a general indication of any other pertinent matters discussed, and
- 7) if appropriate, the general results or outcome of the interview unless already described in the Interview Summary Form completed by the examiner.

Examiners are expected to carefully review the applicant's record of the substance of an interview. If the record is not complete and accurate, the examiner will give the applicant an extendable one month time period to correct the record.

Examiner to Check for Accuracy

If the claims are allowable for other reasons of record, the examiner should send a letter setting forth the examiner's version of the statement attributed to him or her. If the record is complete and accurate, the examiner should place the indication, "Interview Record OK" on the paper recording the substance of the interview along with the date and the examiner's initials.

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: We discussed changes which would overcome the 101 rejection. We discussed the 112 first paragraph rejection and Mr. Stanton suggested adding claims 10 and 11 into the specification, however, such a change will require further reconsideration in view of Lizardtech. We discussed claims 3-5 with regard to Havekost. The Examiner's position is the proposals in the "Applicant Initiated Interview Request Form" are insufficient to overcome the Havekost reference. We discussed further changes to claims 4 and 5. The examiner agreed the further changes to claims 4 and 5 would overcome the Havekost reference in a 102 sense unless Havekost displays both alarm and nonalarm events after filtering and unless Havekost displays both filtered and unfiltered events after filtering. The Examiner will perform an updated search and reconsider Havekost under 103. . .

Appl. No. 10/775,376, Examiner Jeffrey Brier, Art Unit 2628
Supplement to PTO 4.3a dated July 5, 2007

Title : TIGHTLY COUPLED SYNCHRONIZED SELECTION, FILTERING, AND
SORTING BETWEEN LOG TABLES AND LOG CHARTS

Items for discussion:

35 USC 101: in claims 1, 10; replace "medium" with "memory and executable by a computer for performing actions to control a display, the actions"; support at para [00025]

35 USC 112, 1st Paragraph: amend paragraph [00010] to recite the subject matter of (originally filed) claims 10-11 in language more directly matching those claims.

35 USC 112, 2nd Paragraph: in claim 7, change dependency to claim 5 and replace "and" with "or", and correct antecedent basis for "distinguishing indicia".

35 USC 102(e): Three alternatives are presented for discussion:

- propose amending claim 3 final clause to read: "wherein a first and second logged event occurring within a common discrete time interval are displayed as respective first and second symbols stacked along the second axis". Havekost has a trend line, can't see how many events since there are no individual symbols corresponding to individual events.
- argument respecting claim 4: office action at page 10 says alarms will display on the graphical trend chart, but Havekost teaches not displaying those events excluded by the filter (col. 6 lines 54 et seq.). So Havekost displays only those passing the filter, and so there's no need to flag an event with a separate indicia. Claim 4 recites displaying in the graphical format an indicia which identifies the event as an alert.
- propose amending final clause of claim 5 to read: "and ~~for~~ automatically distinguishing by a displayed distinguishing indicia the logged events that pass the filtering from the logged events that do not pass the filtering in both the tabular format display and the graphical format display." Havekost displays only those events that pass the filtering as noted at page 10 of the office action; this amended claim displays in both forms the filtered and non-filtered events and distinguishes them by the displayed indicia in both. See Figs 8A-B; elements 804A'-804D' are darkened in Fig 8A as compared to 805', and a shield indicia is displayed for events 804A-804D in Fig. 8B but not for 805.
